---

The Contra Costa County Fire Protection District responded to a structure fire at a business located at 6026 Main Street in Clayton on Thanksgiving night. Fire units were dispatched to the fire at 5:00pm and the first unit arrived three minutes later at 5:03pm to visible smoke and flames coming from a single story commercial building. The fire was brought under control within 10 minutes of the first unit's arrival. The business sustained significant damage. There were no injuries to emergency personnel or members of the public.

A District Fire Investigator was called to the scene and the initial investigation revealed the fire started outside the business near a bench adjacent to the building. The fire spread into the building from the exterior. The fire was intentionally set, however the responsible person or persons have not been identified. The fire investigation is still ongoing and investigators will be interviewing additional witnesses over the next few days. If members of the public have any information on the fire, they are urged to contact the Fire District's Fire Investigation Unit at 925-941-9140.
