Hi, Kathy,

Just checking in to let you know our gardener has completed the weedeating on our property at 1073 & 1074 Via Alta.

Your crew is welcome to access the abandoned parcel to West below the Via Alta Ridgeline from our property. Access is between our neighbors at 1071 Via Alta and our home at 1074 Via Alta.

Please give us a heads up when you'll have a crew in the area.

Thanks, Kathy. This cooler weather sure is great.

# Personnel Board of Jefferson County

The Foundation of Your Merit System Career

November 3, 2016

Chief Jeff Carmen  
Contra Costa County Fire District  
2010 Geary Rd  
Pleasant Hill, CA 94523

Dear Chief Carmen:

This letter is to formally thank you for allowing Captain Mike Quesada to participate in the Fire Lieutenant Assessment Process, October 16 – October 21, 2016. His knowledge and expertise was extremely valuable in the assessment of the exercises. Especially helpful was his dedication and hard work. The process would not have been successful without him.

The success of our past examinations has, in large part, been due to the involvement, generosity, and expertise of fire professionals such as you and your staff. While the time commitment was extensive, the assessment process can serve as a valuable learning and development experience for fire personnel who serve as assessors. The training and assessment activities supplied assessors with skills for analyzing and evaluating behaviors on the job that can translate to more effective evaluation of staff. Additionally, it provided assessors with a better understanding of fire personnel selection processes. If you have any questions or if we can reciprocate by providing you with assistance in the future, please contact Marty Alber at (205) 279-3595 or at [Marty.Alber@pbjcal.org](mailto:Marty.Alber@pbjcal.org).

Sincerely,

Lorren Oliver, Director

RE: Fire Chief's Report

- 
- The Fire District held a Labor/Management Retreat on November 29 and 30 at the San Ramon Valley Conference Center.
  - On November 21, the District took delivery of a new Mobile Command Vehicle. Valued at approximately \$960,000.00, the vehicle was funded by a regional FEMA Assistance to Firefighters Grant. Equipped with the latest technology and designed to complement the Sheriff's Mobile Communications Unit which was purchased last year, this vehicle is capable of supporting extended incidents. The vehicle is also a regional asset and can be utilized by any county agency.
  - Design documents for Fire Station 16 are still being reviewed by the City of Lafayette. There is no update available on the status of their design review process. The CEQA review is being conducted concurrently, and we expect results from that process in early December.
  - The site plan for Fire Station 70 has undergone several revisions and appears to be compliant with the City of San Pablo's planning requirements. City staff have been helpful in resolving potential plan and design concerns. Fire District staff, along with County Counsel and County Real Estate Division staff, met with City of San Pablo staff to resolve the joint funding agreement. We expect the agreement to be finalized in early December and submitted to the Board for consideration in January. Floor plans and initial design layouts were shared with the FS 70 crews in mid-November, and feedback is being collected for incorporation into the final design. In early December, title reports will be requested on the new parcel located at 1800 23<sup>rd</sup> Street. The CEQA review was initiated in late November and should take approximately five to six months to complete.
  - Beginning the first week of December, the final four newly purchased fire engines will begin to arrive every other week. The final ladder truck and heavy rescue are expected to be in our possession by the end of February 2017. The heavy rescue is funded in part by a grant from the Bay Area UASI. This summary includes all of the equipment we have on order to date. We are presently evaluating needs and recommendations for future purchases, including ladder trucks, water tenders, wildland engines, and wildland urban interface structural firefighting engines.

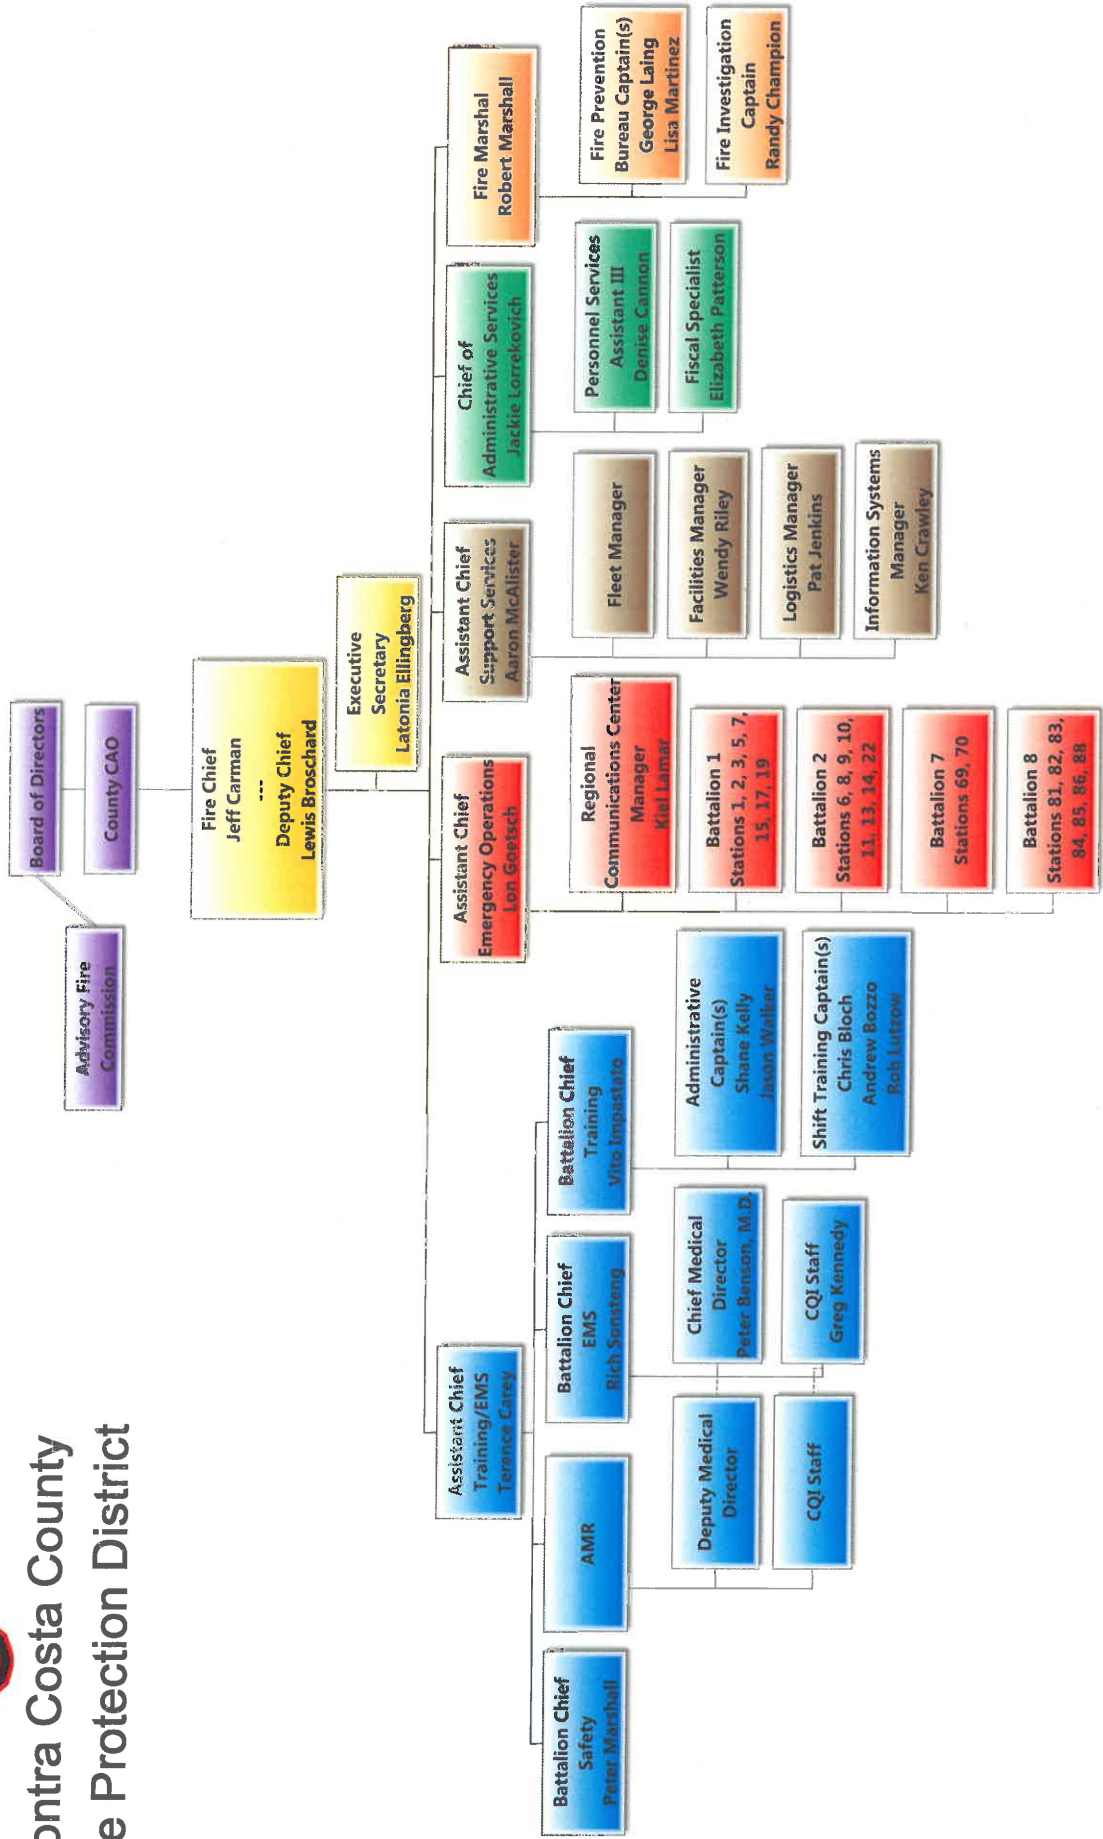

- Earlier this year, the District contracted with a consultant to study our fleet maintenance shop and determine the most cost effective manner in which to maintain our fleet. This study was part of a comprehensive review initiated by the Fire District to ensure we are operating as efficiently as possible. As the study is in its final phases, District staff should receive an administrative draft by the end of November.
- Fire Station 87 in Pittsburg is being prepared for reopening on January 4, 2017. Battalion 8 (Baypoint, Pittsburg, Antioch) is our busiest battalion, and the addition of this engine company will improve response times and service within the District. The public opening of FS 87 is scheduled for January 7, 2017. Additional information is forthcoming.

2016-17 Triennial Sunset Review of Appointed Boards,  
Committees & Commissions

## INTRODUCTION

Contra Costa County is governed by a five-member Board of Supervisors elected by the citizens of our County. The work of the Board of Supervisors is augmented by various advisory boards, committees, or commissions, comprised of citizens who are appointed by the Board of Supervisors. These appointed bodies are formed to provide support and citizen input by making recommendations to the Board of Supervisors on various issues (such as service delivery problems or community needs). County committees are created as a result of State and Federal legislation, contractual agreements with other public agencies, or in response to specific community needs. These citizens' advisory bodies serve as direct links between the Board of Supervisors and our community, expand forums for communication between the public and County government, and enhance the quality of life for our residents.

## SUMMARY OF THE TRIENNIAL SUNSET REVIEW PROCESS

The Contra Costa County Board of Supervisors adopted **Resolution No. 2012/261** on June 26, 2012 establishing a "triennial sunset review process" for County boards, committees and commissions that are formed by the Board of Supervisors. Each year the Clerk of the Board will schedule one-third of these committees for review by the County Administrator's Office and the Internal Operations Committee of the Board of Supervisors.

The purpose of the triennial sunset review is to provide the Board of Supervisors with a method to periodically evaluate the ongoing purpose, performance and effectiveness of the advisory committees. For additional information about the review procedure, please refer to Resolution 2012/261 of June 26, 2012, and to the Advisory Body Handbook. (The Handbook is available on the 'Board of Supervisors' page on the County website).
