OFFICE USE ONLY: DO NOT COMPLETE BELOW THIS LINE

1. This permit covers the emergency repair of the fire protection system as described above. This permit does not cover any alterations to the system not related to emergency repairs. In general, only a like for like replacement is allowed under this permit. In those cases, where a like for like replacement cannot be accomplished due to outdated devices or materials, or other difficulty, work may proceed, however any alterations shall be identified in the "As-built" drawings provided to the Fire District. **Any deviation from the originally accepted installation is done at the property owner and contractor's risk. If there is a concern, a call should be placed to the Engineering Unit. CCCFPD reserves the right to have new work altered, removed, or otherwise modified to ensure compliance with the appropriate code, standard, and/or regulation.**
2. All work must comply with the appropriate code, standard, and/or regulation, and shall be visible and/or accessible at time of inspection.
3. For the duration of the impairment, the procedures listed in 2022 California Fire Code Section 901.7 shall apply.
4. A Fire Watch shall be established in accordance with the California Fire Code for the duration of the impairment.
5. As-built drawings shall be completed and provided to the fire district within 96 hours from the start of work.
6. Final acceptance is subject to field inspections and tests.
7. Other:

- Contact the fire district (minimum 2 working days in advance) at (925) 941-3323 ext. 3902 to schedule an inspection.
- On the morning of the inspection, a confirmation telephone call made to the Fire District at (925) 941-3300 is necessary between 8:00 and 8:30 AM. Otherwise, the inspection may be cancelled.
- Fire district approval does not relieve the designer/contractor from fully complying with all applicable fire code requirements, nor does it abrogate the requirements of other authorities having jurisdiction.
