CONTRA COSTA COUNTY FIRE PROTECTION DISTRICT

October 8, 2025

TO: Chair, Advisory Fire Commission
FROM: Fire Chief Lewis T. Broschard III
SUBJECT: Hearing of Abatement Report

In accordance with requirements of the California State Health and Safety Code, the Advisory Fire Commission shall hold a hearing to confirm the charges of the 2025 Abatement Report so that these charges may be placed on the 2026-2027 tax roll. The total amount of this list is \$82,922.74.

The attached report is an itemized accounting of abatement costs incurred by this District for weed abatement and/or rubbish removal of the listed parcels, as provided for by State statutes and local ordinance.

1. The Commission Chair to open hearing in the matter of receiving and considering the 2025 Abatement Report on abatement costs incurred by the Fire District.
2. Upon hearing objections or protests, if any, by property owners, the Commission may overrule any or all objections or modify the Report as the Commission deems necessary.
3. Upon conclusion of the hearing, a Commission member should make a motion to confirm the Report: "Move that the Commission adopt the 'Resolution of Confirmation' confirming the Abatement Report."
4. An additional motion is necessary to allow adjustment or removal of charges without additional hearings: "Move that the Commission does hereby order the District staff to adjust or modify any charges found to be incorrect because the charge was entered:
 - a) more than once,
 - b) through clerical error,
 - c) through the error or mistake of a material fact, or
 - d) illegally."

HEARING ON ABATEMENT ORDERS

Chair Thompson opened the Hearing on Abatement Orders for all properties listed in Exhibit 1, dated September 8, 2025.

The property owner for Exhibit 1, Line 17 (APN 032-330-031) was present and requested an extension of time to schedule a re-inspection for work completed.

Fire Marshal Bachman recommended that the Commission grant the extension for the property noted above, continuing it to the next Advisory Fire Commission Meeting scheduled for Monday, October 13, 2025.

Chair Thompson asked for a motion to uphold and enforce the remaining forty two (42) abatement orders listed in Exhibit 1 and to grant the requested extension for the property identified on Line 17 of Exhibit 1. Commissioner Nakano moved to uphold and enforce all remaining abatement orders listed in Exhibit 1 and to grant the requested extension as noted. Motion seconded by Commissioner Egan. Motion passed (AYES: Henderson, Guichard, Thompson, Mayo, Nakano, Egan, Oftedal, DeMarce, DiPrisco; ABSENT: None).

COMMISSIONERS' COMMENTS / ITEMS FOR FUTURE AGENDAS

Commissioner Thompson inquired about the water source for aerial firefighting in the Evora Road area. Fire Marshal Bachman responded that the Delta waterway would be the most likely source, as there are currently no Measure X funded District helopods located in that area.

Commissioner Oftedal commented on the Station 94 Groundbreaking Ceremony in Brentwood, noting the strong turnout, which included Commissioners Egan and DeMarce in addition to himself.

Commissioner DeMarce thanked Commissioner Thompson for assisting in coordinating a FireWise meeting for his community with County Coordinator Michelle Rinehart.

Commissioner Egan inquired about the personnel of the seasonal Crew firefighters. Fire Marshal Bachman explained that the seasonal Crew is composed of individuals with varied career paths, some of whom aspire to join the full-time Hand Crew.

Commissioner Egan inquired whether the District currently uses grazing goats for exterior hazard and weed abatement. Fire Marshal Bachman confirmed that the District currently has a contract with Goats-R-Us and utilizes them for mitigation projects that meet specific criteria.

Meeting adjourned at 7:25 p.m.

Contra Costa County Board of Supervisors

Triennial Sunset Review of Appointed Boards, Committees, & Commissions

Phase III

INTRODUCTION

Contra Costa County is governed by a five-member Board of Supervisors elected by the citizens of our county. The work of the Board of Supervisors is augmented by various boards, committees, and commissions that are comprised of residents who are appointed by the Board of Supervisors. These appointed bodies are formed to provide support and citizen input by making recommendations to the Board of Supervisors on various issues such as service delivery problems or community needs. County advisory bodies are created in response to specific community needs or as a result of state and federal legislation or contractual agreements with other public agencies. These bodies serve as direct links between the Board of Supervisors and our community while expanding communication between the public and County government and enhancing the quality of life for our residents.

SUMMARY OF THE TRIENNIAL SUNSET REVIEW PROCESS

The Contra Costa County Board of Supervisors adopted Resolution No. 2012/261 on June 26, 2012, establishing a “triennial sunset review process” for most county advisory bodies whose members are appointed by the Board of Supervisors. Each year the Clerk of the Board schedules one-third of these bodies for review by the County Administrator's Office and the Internal Operations Committee of the Board of Supervisors.

The purpose of the Triennial Sunset Review is to provide the Board of Supervisors with a method to periodically evaluate the purpose, performance, and effectiveness of advisory bodies. For additional information about the review procedure, please refer to [Resolution 2012/261](#) and the [Advisory Body Handbook](#).

INSTRUCTIONS

Phase III of the Triennial Review will cover the years 2022, 2023, and 2024. Please complete all three parts of the attached survey, including [Part I: Questions](#),

Part II: Materials, and [Part III: Signatures & Certification](#).

Completed surveys are due to the Clerk of the Board by **Monday, December 1, 2025**. You can submit your completed materials to Lauren Hull, Senior Management Analyst for the Clerk of the Board by *either* e-mail or hardcopy mail.

Operations Section Update

- **October - Fire Weather.** As reported in August, this year's summer fire season has benefitted from favorable weather conditions, locally. The District reminds everyone we are now in what has been, historically, one of the most destructive periods for wildfire in the Bay Area and Northern California. The end of the peak fire season brings with it the potential of dry, gusty north wind events that can cause small fires to spread quickly and cause significant damage to communities in the wildland urban interface. Residents and property owners are reminded to prepare their properties with effective defensible space and home hardening. Additionally, everyone living in high and very high fire hazard severity zones need to have an evacuation plan. Sign up for the Community Warning System (CWS) at www.cwsalerts.com!
- **Mutual Aid Support.** The District supported statewide mutual aid responses in August and September. Each deployment lasted approximately 14 days and during that time all resources were staffed and available in the District. At one point, there were over 40 members deployed during this busy period of the fire season.
 - **Hand Crew.** Crew 12 was deployed to the Gifford Fire in Santa Barbara County and then another deployment to the Dillon Fire near the Oregon border. It should be noted the crew was the FIRST hand crew to be deployed to the Dillon Fire - a signal about the minimal statewide availability of Forest Service and Cal Fire hand crews.
 - **Dozer Strike Team.** One of our dozers was matched up with the Alameda County Fire Department's dozer to form the first ever local government dozer strike team. They were deployed to the Pickett Fire in Napa County and then to the Dillon Fire.

- Engine Strike Team. Three engines from Con Fire and two engines from San Ramon Valley Fire, with strike team leaders from Con Fire, set out to the lightning fire complex in Tuolumne and Calaveras Counties. They worked there for a few days and were redeployed in support of the large Garnett fire in Fresno County.
- Overhead. Dispatchers, Battalion Chiefs, and Telecommunications Specialists responded to several fires in various capacities in support of these incidents.

- HeloPod Training. Helicopters and staff from the District, East Bay Regional Parks, Cal Fire, and Contra Costa Sheriff participated in a one day orientation and training exercise with the HeloPod deployed at the Marsh Creek Detention Facility. The training was important for the pilots to experience the act of drawing water from the tanks with either their bucket or snorkel system. This training enables the pilots to become familiar with the HeloPod system and to sharpen their skills at dipping from the tanks.

Emergency Medical Services (EMS) Division

- Nurse Navigation This program continues with 276 calls being assessed by the nursing staff in the program since the June rollout. We are continuing to evaluate the program, the current benefits, and potential for future expansion.
- APOT Ambulance Patient Offload Times continue to persist with recent wall times at Kaiser Richmond reaching 3 hours on one day in September. John Muir Walnut Creek has made significant improvements. (A report is attached.)
- Emergency Ambulance Contract Extension The District is waiting on confirmation regarding next steps with the Contra Costa County EMS Authority (CCCEMS) for an extension of the emergency ambulance services contract that is set to terminate on December 31, 2025.

Special Operations

- **Hazardous Materials Response Team**

- Training. The team was very engaged in August and September with various training events with our industry partners throughout the District. The inclusion of private industry in our facility walk-throughs, training events, and scheduled safety days with facility staff and vendors is helping to establish and maintain critical relationships. The team has received praise and very positive feedback from the facilities engaged in training and event participation.
- Super Bowl Assignment. Our hazmat team was selected to be the on-site hazardous materials response team at the 2026 Super Bowl in Santa Clara. Through the Cal OES deployment program, our hazmat team will be on site throughout the week leading up to the event, and during the event itself, to provide immediate response and assistance to Santa Clara. Our team is engaged in planning and training for the event.

- **Marine Program**

- Response Activity. Three incidents occurred in August and over the two month period. All boats are fully operational.

- **Rescue**

- Our rescue company attended a safety day at the Henkel facility in Bay Point and is working with Phillips 66 in Rodeo to plan a rescue operations drill with the Air Liquide plant on site.

Training & Safety

- National Traffic Incident Management Training. All emergency response members completed this 10 hours of instruction to help our members understand the dangers of working on roadways and mitigations to put in place to increase firefighter safety.

Advanced Planning Section Update

Fire Prevention Bureau

- Fire Risk Reduction Community List (FRRCL). We submitted our application to be included on this statewide list of local agencies located in a state responsibility area or very high fire hazard severity zone that meet best practices for local fire planning. The application will be reviewed by the Board of Forestry over the next 9 months to update the FRRCL, which will be published and then active for 2 years. Being approved for the FRRCL could improve our ability to receive certain California grants and provide residents within our jurisdiction discounts in home insurance premiums, as identified by the California Department of Insurance.

Legislation & Grants

- Public Safety Fireworks Enforcement Task Force. Assistant Fire Chief/Fire Marshal Chris Bachman was selected to serve on this State Fire Marshal task force to address the challenges of illegal fireworks. He will be representing the California Fire Chiefs Association in his appointment to the committee. We are hopeful his insight, perspective, and experience will encourage changes at the state regulatory level to improve safety and reduce the use of illegal fireworks.
- Zone 0 and Home Hardening Regulations. The State Board of Forestry has been holding committee meetings on this subject, but is not expected to publish any new regulations until after the new year.

Administration Section Update

Support Services Division

- 1300 Civic Drive Property Acquisition. The District has acquired this property adjacent to Fire Station 1. While the building will be utilized as additional training and office space in the coming years, owning this site is a strategic step toward the future replacement of Fire Station 1.
- Training Campus Improvements. We continue to address ongoing infrastructure and deferred maintenance issues at the Training Tower in Concord. Over the past few years, heavy fire apparatus and water runoff from training exercises have caused repeated failures in the surrounding asphalt. While the concrete

immediately around the tower has remained in good condition, the asphalt areas were deteriorating. The District has now replaced the failing asphalt with more durable concrete to ensure long-term functionality.

- 20 New Ambulances Purchased. Represents continual investment in modern ambulances to replace older high mileage units. The first five have been delivered to the District.
- Byron Wildfire Center. The District is negotiating with Cal Fire for the placement of their Type I Handcrew for the Santa Clara Unit at the center effective in the late Spring, 2026. The 20 person crew, currently located in San Jose, would augment the wildfire response capability in our county, while also continuing to serve the entirety of the Santa Clara Unit of Cal Fire which covers multiple counties. The negotiations include monthly rent and facility upgrades to house the Cal Fire crew.

New Fire Stations / Major Facilities Construction

- Fire Station 90 (Brentwood) The District is currently coordinating with County Environmental to complete the required CEQA studies. In addition, efforts are underway to schedule a public meeting to gather community input on the station's design.
- Fire Station 9 (Pacheco) The preliminary design for Fire Station 9 has been completed and will be used as the basis for the upcoming bid process. Staff will bring an agenda item to the Board next month seeking approval to issue a Request for Qualifications (RFQ) and Request for Proposals (RFP) to procure a Design-Build Entity.
- Contra Costa County Regional Fire Communication Center (CCR FCC) (Pleasant Hill) Construction continues and is on track for an early December move-in. Carpet and furnishings are being installed. Significant PG&E electric switchgear was installed.
- Fire Station 94 (Downtown Brentwood) The groundbreaking ceremony was held on September 8 and well attended. Work has begun on the construction of the station.

Rodeo-Hercules FPD (RHFPD) Annexation

- The District continues to work with the City of Hercules on transfer of ownership of Fire Station 76, including potential lot line adjustments.
- Benefit assessment data was provided to the Treasurer/Tax Collector in August for the FY25-26 tax rolls.

Contra Costa County Hazardous Materials Programs Transition

- A meeting with Cal EPA regarding the CUPA transfer process was held in September which included the District, County HazMat leadership, and County Counsel. Cal EPA will be providing assistance in the application process. Nothing of significant concern was brought up by CalEPA and they noted their appreciation for all the work and organization that has been put forth to date on the transition.
- Bi-Weekly planning meetings with staff from the District and County HazMat commenced in August and are continuing
